Kris: I hope you are well; it has been a long while since we have spoken. I just left you a lengthy voicemail (sorry). The news -- Today is the day NOAA and EPA provide Oregon with the decision on their coastal nonpoint source pollution control program. The decision materials are attached below for your reference. The state was provided a copy earlier today. I understand the same person at EPA who has been providing Nina Bell with the bi-monthly updates also is sending these materials to her, so Northwest Environmental Advocates should know by now (or very shortly in the future) that the decision has issued. Please let me know if you have any questions about any of this. It would be good to catch up sometime -- and perhaps we can discuss something other than CZARA.

Until we speak,
Jeff
